NOVEMBER SESSION OF LINCOLN COUNTY COUNCIL

Children's Shelter Presents Report For Year—Payments To High Schools Authorized

The Lincoln County Council held its November session on Tuesday, November 15th, when reports of various committees were presented, including Education Audit, Children's Shelter, Road and Finance.

The council passed a resolution expressing to Reeve Woodruff of Niagara Township their sympathy while suffering on a sick bed and hopes for his early recovery.

The report of the Education Audit Committee of which Reeve Watkins is chairman recommended the payment of varying amounts to the four high schools, Beamsville, Grimsby, Smithville and Niagara-on-the-Lake.

Education Audit

Your Education Audit Committee met in the Clerk's office, at the court house, St. Catharines, on Tuesday November 15th, 1932, at 1.30 o'clock, p.m. and recommended the following High Schools be paid the amount set forth on account of their account for the year 1932:

Beamsville High School	\$8,200.00
Grimsby High School	4,800.00
Smithville High School	2,600.00
Niagara High School	1,600.00

\$17,000.00

Roads

That the report of the Special Committee as presented by the Road Superintendent be approved.

That this County Council endorse the request taken by the Town of Merriton relative to the cost of construction of Thorold Road and the franchise for the operation of buses in the town.

Finance

That a grant of \$500.00 be made to the St. Catharines Clinic.

That the County Solicitor be instructed to collect for the maintenance of Robert Miller as an indigent hospital patient.

That a grant of \$50.00 be made to the Beamsville & Lincoln Poultry Association for 1932, providing they hold an exhibition.

That we endorse the resolution from the United Counties of Stormont, Dundas & Glengarry re Hospital indigent patients.

That the hospital accounts be paid on the O. K. of the chairman.

That the be instructed to notify the hospital of the insurances at Toronto that they intend to move Mrs. Barraman to the Norris Nursing Home in St. Catharines as soon as possible.

Children's Shelter Disbursements

Salaries and Wages	\$3,928.00
Groceries and Meats	417.32
Milk	415.52
Bread	118.96
Ice	16.50
Drugs	63.25
Clothing	178.52
Heat and Water	280.77
Telephone	118.48
Motor Maintenance	342.03
General Repairs and Replacements	117.28
Postage, Printing and Stationery	70.81
Taxes	41.47
Insurance	62.50
Contingencies	61.38

\$5974.08

Receipts

Board of Children \$ 367.50

Owing to the fact that the Children's Aid Society's year ends 31st October, it is impossible for me to give the above statement on an Income and Expenditure basis as the city accounts close 31st December annually.

COUNCILLOR INJURED

To avoid hitting a car coming towards him on Monday, C. F. Merritt, of Grimsby, who was proceeding east on No. 8 highway, ran off road and into the front yard of Mrs. James Mahan's place on King street east, just at the limits of Beamsville.

He ran across the lawn, banging up against a shade tree, damaging his car front, and receiving a number of carp cuts on his chin from the impact. His many friends will be pleased to learn that Mr. Merritt who is a member of the town council was not seriously injured.

Hamilton Mayor Would Reduce Size Of City Council

Mayor Peebles, of Hamilton, favors not only a reduction in the salaries of mayor, controllers and aldermen; but also a reduction in the size of the city council.

Discussing the union government suggestion of the warden of Elgin county, the mayor said he heartily endorsed it; not merely as an emergency measure to reduce expenditures at the present time, but as something desirable for all time.

"Why should the country be deprived of the services and advice of admittedly able men simply because they happen to occupy opposition benches?" asked his worship.

"For my part, if it were feasible I would dispense with politics altogether and certainly they should not play any part in municipal affairs. Under our present system we have too many governing bodies and too many legislatures. We would be better and more economically governed by fewer and smaller bodies. The provincial legislatures in particular have far too many members. Half the number would be twice as effective."

Royal Bank At Hamilton Robbed Of \$2000 By Bandits

Two armed bandits held up the Mount Hamilton branch of the Royal Bank of Canada Tuesday at noon, and after locking two clerks in the vault, escaped in a stolen car with \$2000 in bills of small denomination.

The two employees, E. Muir and R. Danosa, were alone in the bank at the time. At 12.35 o'clock the two gunmen entered, one carrying a revolver the other a sawed-off shotgun. They shouted "Blitz 'em up!" and, while the one with the revolver guarded the door, the other vaulted the counter and, at the point of the shotgun, forced the two employees to back into the vault. In the vault, in an inner safe, was a considerable sum of money; but the gunmen were evidently bent on a quick getaway and they did not demand that either of the clerks open this inner vault. The door to the vault was slammed on the two employees and the man with the shotgun then evidently scooped up all the bills in the cashier's cage.

This was estimated to total \$2000 in bills of varying denominations. The two men left hurriedly, entered their car, and headed westward.

David Barnard, a traveler for Swift & Co., heard the shouts of the imprisoned bank clerks, and, entering the bank, released them. Police were immediately notified, as was H. A. Walker, 27 Cliff avenue manager of the bank, who was at home having lunch.

Police threw a network around the exits leading from the city, motorcyclists manning all highways, while detectives attempted to locate fingerprints which might prove of assistance.

Hamilton Man Gets One To Two Years For Bigamy

After pleading guilty to a charge of bigamy last week, Charles McLean, King William street, Hamilton, appeared for sentence in police court Tuesday morning, and was sentenced to one to two years in Burre's reformatory. McLean came from Scotland to Canada in 1916 and was married in Hamilton in January, 1929. On November 9, this year, he went to Toronto in company with Miss Ursula Herlihy, and went through a form of marriage with her on November 12, with Rev. Edward Marley of St. Paul's church, Runnymede, officiating. It is understood that the first marriage was discovered by his second wife when she found a bill for furniture which had been supplied to a first Mrs. McLean. Miss Herlihy fainting in court before the case was reached on the roster, and that aid measures were given outside the court room.

COMING EVENTS

OLD TIME & MODERN DANCING every Saturday night at Smithville, from 8.30 to 12 o'clock. See R. Robinson's Five Year Old Mrs. Adams.

PRIZE CANARIES WERE SUFFOCATED

Mr. and Mrs. Blaylock Lose Birds Valued At \$1,000 In Fire At Their Home

Smoke from a fire which is thought to have resulted from an overheated stove at the home of Mr. and Mrs. Blaylock, 16 Murray Street, Grimsby, on Friday evening was responsible for the untimely loss of 50 pedigreed English roller canaries valued at \$1,000 and a pet dog, while damage was also done to the dwelling by the flames which were quickly extinguished by the Grimsby Fire Department. The loss of these valuable birds is keenly felt by the owners. Many of them were prize winning birds and had been on exhibition at their store, Main St., where they were much admired. Unfortunately no insurance was carried on the canaries or furniture at the time, the insurance not having been transferred when they moved here some three months ago.

Mrs. Blaylock had been at the tobacco store of her husband during the evening and returning home shortly after nine o'clock, smelled smoke as she neared the residence. As she proceeded along the street she could plainly see the smoke but did not realize at the time that it came from their home.

On opening the front door, however, clouds of smoke poured forth and flames were to be seen at the rear.

Neighbours called the fire brigade which was promptly on the scene, a lively blaze having developed in the kitchen of the house. A dog lying on the dining room floor was rescued by a fireman but it died shortly after. The canaries were found dead in their cages, having been suffocated by the smoke.

The floor underneath the stove in the kitchen was burned through, causing the stove to fall into the cellar.

Much sympathy is expressed for Mr. and Mrs. Blaylock in the loss sustained so soon after becoming residents of the town. Among the canaries which were victims of the smoke were some particularly fine specimens and many canaries had been received from Grimsby citizens who were contemplating acquiring some of the birds.

RED CROSS OUTPOSTS

Extending over an area of hundreds of square miles in the new sections of Ontario, giving the only hospital and trained nursing care available to thousands of settlers are 24 Red Cross Outpost Hospitals. They are maintained by the Red Cross, owned and equipped by local branches of the Society, financed by gifts from all over the province, and directed from Toronto. 11 of these are single nurse Outposts where one nurse "holds the fort" and lives among the people, ready to meet any emergency and put her trained nursing skill at their service at all times.

This is a work that appeals to all Ontario. The people of the larger cities of the province have contributed generously to the little outposts. They have sent them the things they need and have given more than ever before. But the need is so great in the lonely outlying sections of the province that the Red Cross is putting forward a widespread appeal to keep the nurses in the North where they are so urgently needed.

Contributions should be sent direct to Ontario Red Cross Society, Headquarters, 410 Sherbourne Street, Toronto.

"What sculpture is to a block of marble, education is to a human soul."—Aldous.

Card of Thanks

We desire to express our sincere appreciation of the efforts of the Grimsby firemen, the assistance rendered by individual citizens and the kindness of neighbours and friends in connection with the fire at our home last week and also to thank the fireman who rescued our pet dog from dwelling.

MR. AND MRS. BLAYLOCK

Card of Thanks

Mrs. Hugh Walker and family wish to thank friends and neighbours for their kindness and sympathy in their recent bereavement, also those who kindly loaned cars.

Town Acquires 82 Lots Offered At Tax Sale

The postponed tax sale of 82 lots was held on Friday last in the council chambers. Only a few bids were received but these were not for a sufficient amount to cover arrears of taxes and other costs. The town accordingly has acquired all these lots and will dispose of them as opportunity offers. The owners of the lots have a year in which to redeem them. 53 vacant lots were originally offered one of which was disposed of at the previous sale.

CAR SKIDS INTO TRUCK

Two Injured In Accident During Snow Storm Near The Thirty—Vehicles Wrecked

Stanley Bulanda, 70 Facer street, St. Catharines, had several injuries inflicted to his nose and eye and back of head, and R. Secord, driving the truck owned by the St. Catharines Packing company, was out on the face and hurt internally when a car driven by Mrs. Jessie Caynon, of 194 Second avenue, Niagara Falls, Ont., is stated to have skidded into the path of the truck in the blinding snow storm, Wednesday afternoon last near the Thirty creek. The truck was coming from Toronto and was loaded with six head of butchers' cattle going to St. Catharines; the Caynon car was on its way to Toronto. The impact threw the standing cattle over on the cab of the truck, crushing it almost level with the body of the vehicle, smashing the steering wheel into matchwood. The leg of one of the animals protruded through the truck's windshield and the rest of the animals escaped along the highway until rounded up later. Mrs. Caynon was injured in the chest and shoulder, and two other ladies in the rear were shaken up.

Bulanda and Secord were driven into Beamsville by T. Jones, who was passing, and the car was damaged.

Mr. and Mrs. Bulanda were injured men medical treatment and stitches were put in the wounds of both of them. They were taken to the St. Catharines hospital by J. W. Buck.

Mrs. Caynon's car was badly stove in and the Bulanda truck was a shambles. It was reported that Bulanda's injuries may be more severe than was at first thought, but both men had miraculous escapes from the wild pounding and terrified cattle. H. T. O. Earl Bond was on the scene shortly after the occurrence and made a thorough investigation.

Head-on Collision Near Beamsville One Person Hurt

What is thought to have been a head-on collision near Beamsville, between two cars occurred on the highway at 2.30 o'clock Wednesday morning, when Roy C. W. 32 Tri-bester road, Toronto, had his arm fractured. The other seven persons involved in the accident escaped injury, though both cars were demolished, two wheels being forced off each car, and the glass in the windows shattered.

In one car were five hockey fans, travelling from Port Colborne to Hamilton, and in the other was Mr. Ely, who was attended by Dr. Elmore, of Beamsville, and taken to St. Joseph's hospital, Hamilton. The names of the men in the Port Colborne car could not be learned.

THOROLD WOULD ANNEX PART OF TOWNSHIP

Argument took place at Toronto on Saturday before the Ontario municipal and railway board regarding the legality of the petition proposing annexation of part of Thorold township, known as Thorold South, to the town of Thorold. Decision was reserved and will be announced on November 24. There is a strong opposition to the movement being expressed at meetings in the township.

Card of Thanks

I wish to take this means of publicly conveying to Chief Demill and Members of the Grimsby Fire Department my sincere thanks for the quick response they handled the fire at 16 Murray Street.

H. SHAFER.

YOUTH KILLED ON HIGHWAY

Two Lads Riding In Buggy When Struck By Automobile—Other Accidents

One fatality and other accidents involving injuries to passengers in motor cars occurred in the district during the past few days.

An inquest has been ordered by Dr. D. V. Curry to enquire into the death of Leslie Corman, 28, of Louth Township, who was almost instantly killed when the buggy in which he was riding was struck by a car on the provincial highway west of the Fifteen Hill, Monday evening. Leo Corman, 15, brother of the youth who was fatally injured, is in the General Hospital, St. Catharines, suffering from injuries to his face, right arm and leg. He will recover. C. V. Starkweather, Townsanda, driver of the car which struck the Corman buggy was not held.

The two boys were on their way home when the car, approaching from behind, crashed into the rear of their buggy. Starkweather, who sustained a cut on his forehead, told police that there was no light on the buggy. A coal oil lamp was found among the debris following the accident. The horse was severely injured and had to be killed by Inspector Wm. Pawell of the Lincoln County Humane Society. The accident was investigated by Provincial Constables MacKay and Wood and H.T.O. Earl Bond. No date has yet been set for the inquest. The car was badly damaged and the buggy demolished in the accident.

William Randolph Leslie Corman, the deceased, was the son of Mr. and Mrs. William J. Corman, Louth Township. He resided with his parents and was a member of Rockway Church. A youth of great promise, his untimely death has aroused the sympathy of a wide circle of friends in the community in which he resided. Besides his parents he leaves three brothers, Alvin, Leo and Norval; and one sister, Virginia. The remains are resting at the funeral home of Winter and Winter until Wednesday morning and the funeral will be held at 2.30 Thursday afternoon from the family residence.

Last Friday, a motor car in charge of Frank Paris, of Port Colborne, carrying four members of the Colborne hockey team to Brantford, crashed head-on into a team of horses and dump wagon, in charge of Charles Holder, South Grimsby township, which was, police said, crossing the highway without a light of any kind showing. Holder sustained internal injuries and was removed to the office of Dr. Leeds, at Smithville. One of the Port Colborne hockey players was cut about the face and head, while the other members of the party were shaken up. They were all picked up by other Port Colborne motorists en route to Brantford and taken to that place.

One of the horses drawing the dump wagon was instantly killed. The outfit was owned by Roy Honsberger, Vineland, contractor, who has been working on the new highway.

The smash occurred just at the end of the Smithville-Grimsby stone road. Motor car and wagon were both smashed beyond repair.

The snow fall on Wednesday last made the roads slippery particularly between this town and Beamsville, resulting in a number of collisions.

A Brantford motorist skidded over a truck while a collision also occurred near the Thirty.

All But 300 Tons of Grapes Harvested In The Peninsula

Roughly, it has been estimated that all but 300 tons of grapes grown in the Niagara peninsula this year were successfully harvested. The fruit left on vines was that portion of the crop affected by severe frosts and which, as a consequence, was not worth the trouble of picking.

It is a common notion that frosts help to improve the quality of grapes. This is the case only up to a certain point, C. W. Bauer, secretary of the Ontario Growers' Marketing Board, views the first slight frost as a blessing.

When the grapes, he said, are frosted which penetrates the flesh of the fruit tend to flatten the flavor.

Marketing of the grapes this year had not been very remunerative for the growers, stated Mr. Bauer, who instance many occasions when ridiculous price-cutting tactics occurred. He related that on four different occasions on Ontario fruit was available in the city of Edmonton, Alberta, due entirely to the instability of prices.

NO. 20 HIGHWAY OPENED BY HEAD OF PROVINCIAL DEPT.

No Discrimination Against Hydro Users In St. Catharines

A report which was merely filed, but backed by the long experience and knowledge and the entire authority of the Ontario Hydro Electric Commission was submitted before Commissioner J. R. Campbell in the Hydro enquiry last week at St. Catharines.

The report, presented at enquiry shown that there has been no discrimination against domestic and other users in favor of power users in that city, but that on the whole, St. Catharines as far as rates go, is the better Hydro city of the province, as compared with other cities similarly placed as to power demands and consumption.

New Lower Rates For Car Licenses Said To Be Contemplated

Readjustment of automobile fees for 1933 is to be announced shortly by the Ontario department of highways, the Toronto Telegram said recently. The schedule is now under consideration by Hon. Leopold Macaulay, minister of highways.

"The new schedule, it is stated will apply chiefly to light six and eight cylinder cars, which came on the market this year, falling under the increased rates placed in operation last year for six and eight. The present rate is \$12 for a six-cylinder car and \$20 for eight cylinders. For the lighter and lower-priced cars it is felt these rates are rather high, so it is expected the new rates for the light ones will be \$10 and for the light eight-cylinder cars probably \$18 or \$16," the newspaper says.

SUGGESTED THAT DEPT. DELAY ISSUING LICENSES UNTIL LATE SPRING

As yet no advice has been received at the license bureau of the Department of Commerce, St. Catharines, relative to the date when supplies of the 1933 license plates for cars and trucks will be received. It is usual about this time of the year for notification to come from the highways department. It is suggested that the department might be giving consideration to the proposal of delaying issues of license plates until the late spring or early summer. Advocates of the change have pointed out that with having to purchase plates at the Christmas season or shortly thereafter, a hardship is created owners of trucks and motor cars. With respect to the former, their most active season commences during the spring, and the majority of transport men are said to favor the proposal as, at that time, they are in a better position to pay for the license.

Warden Glover's Picture Is To Be Hung In County Council Chamber

A special committee meeting of a couple of members of the county council was held last week to discuss a momentous subject. What shall be done with Herbert D. Glover, warden of Westworth county for this year of grace, 1932? Or, at least, what shall be done with his picture?

In the county council chamber over at the court house is a gigantic picture frame, in which the pictures of all the wardens from the year 1855 are placed. Last year this was filled, the last space being taken by the picture of T. W. Gibson, warden of 1931. There are 60 pictures in the frame and all year it has been a puzzle for members what would happen when the time came due for Warden Glover's picture to be hung. A special committee was needed to make the weighty decision. A new frame about the same size as the old one will be constructed and hung on the north wall of the chamber. To avoid the ap-

Employment Given To 500 Men—30 Per Cent. Saving Effect—Banquet At Smithville—Contractors Entertain Representative Gathering

On Thursday evening last the Masonic Hall, Smithville, was the scene of a representative gathering of citizens of the counties of Lincoln, Westworth and Welland counties and adjoining cities and towns, together with high officials of the provincial highway department in commemoration of the official opening of Highway No. 20 by Hon. Leopold Macaulay, K.C., Minister of Highways for Ontario. The gathering which taxed the capacity of the hall, included members of the Legislature, wardens of the three counties and members of the city council and officials of St. Catharines, Welland, Niagara Falls, Hamilton and the towns and villages along the route of the highway. Close to three hundred were in attendance.

Both the town of Grimsby and the township of North Grimsby were among the municipalities represented. The opening of the highway signalled the completion of another great link in the Ontario Highway system. It was emphasized by Mr. Macaulay that fully 70 per cent. of the \$600,000 which represented the cost of Highway No. 20 went into the pockets of the day laborers engaged on the road, it being constructed 50 per cent cheaper than it could have been built several years ago, representing a saving of \$9,000 per mile. He said it gave employment to 500 men at a time when there are many out of work.

The banquet which was a sumptuous one, was tendered by the contractors and material supply houses engaged on the construction of the road as follows: Brennan Faring Co., Ltd.; Archibald Birdall, Ltd.; R. y. Honsberger; Curran & Briggs, Ltd.; Consolidated Road & Gravel, Ltd.; Canada Crushed Stone Corp., Ltd.; Canada Cement Co., Ltd.; Gordon Crushed Stone company, Ltd.; Imperial Oil Limited; Windsor & Point Crushed Stone Co., Ltd.

Dinner committee: George McVey, J. J. Wilson, M.L.A. for Lincoln, presided as chairman of the evening and in his introductory remarks spoke very highly of the contractors who were engaged on the construction of the highway. He referred to the general courtesy of the contractors and the excellence of the work. Fully seventy-five per cent. of the labor used was local labor and in the case of Contractor Honsberger 90 per cent. local labor had been used.

The Minister of Highway together with his Deputy, R. M. Smith, met Honsberger, a member of the Hamilton Board of Control, who represented the mayor and other members of the council, county council and engineers at the intersection of the Niagara Highway and the Beach cut-off and escorted by traffic officers, the entire party drove up the new Mountain road at Stoney Creek onto King's Highway No. 20 proceeding along part of the highway which extends from Hamilton to Penhold and thence by existing highways to Niagara Falls and Welland.

T. J. Robson, M.L.A. for Westworth and president of the Ontario Motor League, spoke of the great increase in highway traffic since the opening of the first highway, that from Toronto to Hamilton, about 15 years ago. He, too, complimented the contractors on the high quality road which had been constructed, stating it was a first class highway built to the best specifications. To the engineers, contractors, the highway department and the great body of motorists whose taxes contribute to the highway costs we owe a great debt of gratitude, he said.

(Continued on page 8)

Card of Thanks

Colleagues desire to express their sincere and grateful thanks to the members of the Grimsby Fire Department and all their neighbours and friends for the much appreciated assistance rendered on the occasion of the fire on Wednesday last. But for the timely aid given in saving both dwelling and furniture the home and its contents would have been destroyed. They are also very appreciative of the kindness of friends in offering to open their homes to them following the fire until the damage done could be repaired.

Voice of the Press

Canada, The Empire and The World at Large

CANADA

British Films Going Strong

Most Canadians are pleased to know that British-made films improve in quality, and that the British industry prospers abundantly. We base this statement upon reports brought back from England by returning Canadians and upon frank admissions published in United States trade journals. Mr. Walter Wanger, vice-president of the Columbia Pictures Corporation, interviewed by the Film Daily, an influential United States trade organ, is quoted as saying:

"It might be well to note that although the American industry has made little progress through this period of world depression, enormous profits have been made in England by producers, distributors and exhibitors. Should this situation make us think? Those in control of production do not seem to realize that there is an entirely new world point of view which has to be met in picture product. This changed viewpoint radically affects the type of entertainment that must be furnished, as well as the attitude of the audience. Artistically, the business must improve."

The quality of restraint and wholesomeness, observable in many Old Country films, is one that recommends them to Canadian patrons.—Toronto Mail and Empire.

Something Lacking Here

The end of the limit seems to have been reached when a man in Montreal was sent to jail for 15 days because he begged a cigarette from a more fortunate individual. Somehow that rubs heavily against the grain of a normal person.

This man certainly was more stoned against than stalling and the citizen who "turned him in" apparently had completely forgotten the Biblical quotation, "It is more blessed to give than to receive" while his accuser apparently went on the Biblical assumption of "Ask and it shall be given unto you."

This thing is carried too far we know a great number of office "friends" who will shortly be on the inside looking out!—Kitchener Daily Record.

The Bacon Quota

The Ottawa agreements provide for free entry into Britain of 250,000 pounds of Canadian bacon of "good quality." "Good quality" means the grade known in Canada as "select," and year Canada only produced one-fifth of the number of hogs required to supply this quota of "good quality" bacon.

It is a dangerous policy. Dangerous to the industry, because it tends to revive the prestige of the military caste, to strengthen the waning feudal ideology. Dangerous to civilization, because it creates on more septic focus in a disordered world.—Round Table, London.

Dangerous Policy

The Japanese see China rapidly disintegrating before their eyes, and they ask themselves whether their best course is not to strive to save something from the ruins, and to mark out and secure at least one area which they can immunize from the surrounding contagion? It is a desperate policy, but it is intelligible to anybody who will admit that Japan's interests in China are more vital to her than the interests which the Shanghai defense force was established to protect.

Peace With Menace

The time for rapprochement between the Government and the Congress will come only when civil disobedience is definitely called off, and when there are guarantees which fully satisfy the Government that there will be no attempt to revive it in any shape or form. Even then, past experience cannot but make the Government cautious in accepting any overtures for peace that may come from the other side. India cannot afford to risk a repetition of the disastrous experience that followed the Irwin-Gandhi Pact.—Calcutta Englishman.

OTHER OPINIONS

Home Town Advertising

Mr. Merchant, the newspapers from the larger cities near your community are coming into the homes of your own customers these days with advertising columns bursting with announcements of real values.

If you will go to your home town newspaper advertising man he will help you with your advertising problems and make your advertising just as appealing to your customers as the "big city" advertising is. You, Mr. Merchant, have to keep that lead.

Local advertising has the jump on advertising that comes in from the outside, by properly utilizing the home town newspaper columns consistently and with careful attention to the preparing of copy.—Kenton, Ohio, News Republican.

No Change

The many Americans who are constant readers and admirers of Punch had naturally a moment of dismay when it was announced the other day that Sir Owen Sound, who has been the editor for the last 25 years, was about to retire. But the fears that a new editor might give us a new, twentieth-century, wheedling Punch, a Punch of studied irreverence and partly in the spirit of some of our contemporaries, notably in Germany and the United States—are happily not at rest. Sir Owen's successor is likely to be E. V. Knox, the "Evoc" that has long been signed to some of Punch's most delightful bits of satire and parody in prose and verse.—Boston Transcript.

The World's Banker

Even imprudent people are compelled to be thrifty on the land. They cannot in actual fact get to the end of their resources, for a hand-to-mouth life is impossible for them. The process of farming makes the farmer place his investments in the soil.

Bells For Hamilton

Workmen of Whitechapel, England, are now busy preparing the inner mould for a four and one-half ton bell, the largest of a carillon for the new cathedral at Hamilton, Ont. This is the bell core being moulded while baking.

Canada's Exports Up For October

\$1,88,178 Increase as Compared to 1931—Trade Balance Off

Ottawa.—Canada's exports to foreign countries increased by \$1,88,178 during October, according to figures released last week by the Department of National Revenue. The increase, compared with the figures for October, 1931, occurred chiefly in exports of wheat, the volume of which was more than double that of the same month last year.

Last month's exports had a value of \$54,525,99, as against \$52,644,817 for October, 1931. Re-exports were \$334,279, compared with \$304,942 for the same month last year.

A heavy decline in imports from \$45,525,52 in October a year ago to \$37,185,50 last month boosted Canada's export balance to \$19,340,48.

Total trade for the month under review had a value of \$91,711,496, as against \$84,830,409 for October, 1931. Customs and excise revenues during October decreased by \$1,612,510 from the same month a year ago. Revenues for last month were \$18,34,964, and for October, 1931, \$19,967,474.

An increase of \$489,464 in income tax collections is shown. The total for October, 1931, was \$325,443, and for last month, \$1,254,893.

Searchlight To Carry Human Voices 25 Miles

Schenectady, N.Y.—A searchlight will carry human voices 25 miles into the Adirondacks when General Electric engineers renew their experiments with transmission of sound on light rays.

Focuses a powerful 36-inch searchlight beam upon a point in the mountains near Lake Desolation, engineers of the lighting and receiving end will talk back and forth across the searchlight beam.

The rays will be collected upon a 20-inch concave mirror set up at the mountain lake, and there focused upon the mechanism which will reproduce the sound.

"That's quite a heavy job. Two hours of work is a good day," William Bell—Yates.

Head of Lakes Ships Tied Up

Blizzard of Mid-Winter Proportions Reported—Snow in West

Winnipeg.—The weatherman's week-end forecast was varied. At the head of the lakes a blizzard of mid-winter character swept the district Sunday night, resulting in a complete stoppage of lake shipping. Further south was reported in Manitoba and Saskatchewan districts, while warning of snow and sleet came to the foothills of Alberta on the tail of a Chinook wind. Temperatures Sunday were above the freezing point in Calgary.

Light Planes Can Be Made Cheaper Than Autos

Montreal.—A light airplane was made in the same quantities as light automobiles, the aircraft would be cheaper than cars, according to Adrian Comper, president of an English aircraft company. He said that the cost of a light airplane is about the same as that of a car, but that the cost of a car is about the same as that of a light airplane.

U.S. Industrial Production Exceeds August 10 P.C.

Washington.—Industrial production in the United States, including both manufacturing and mining, was 10 per cent larger in September than in August.

The Federal Reserve Board reported today that sharp increases in physical output in the recent months had been largely concentrated in the textile and leather industries but in September included most packing products, steel and coal.

Have Two Sets of Twins Less Than a Year Old

Indianapolis.—A local attorney and his wife are parents of two sets of twins, each less than a year old. Terence and Donna Herbst were born last March 12.

Canadian Takes Military Event

Roxana, Ridden by Lieut. Cleland, is First in Jump-off

Toronto.—Fast and brilliant competition between Irish Free State, Canadian and United States mounts who tied for first honors in the international military event at the Royal Winter Fair Horse Show was the climax to a fine program which was offered to a crowd which filled every available space in the Coliseum Saturday night.

In response to the warmth of the enthusiasm which greeted their appearance in the ring, all mounts appeared to be in their finest form, and jumping was exceptionally good. The course offered to the military mounts was difficult, a handy course including hazardous jumps, and of the 2 entries only three succeeded in clearing. The crowd showed keen delight that these were representatives of three countries; the fine chestnut Roxana, ridden by Lieut. Marshall Cleland of the Governor-General's Body Guard; the Irish Free State Silverhens, ridden by Capt. Corry, and Anselma, ridden by Lieut. E. P. Thompson of the United States.

Called back for a jump off, Roxana won the international event for the second time in the Winter Fair Show this year, by another clean performance. Silverhens knocked the gate in the middle of the course. Anselma faltered at rails just preceding the gate and took third place, the second going to the Irish horse. Tenace, ridden by Captain Clive of France, who had had the most perfect performance to those who had cleared the first time over the course, won the fourth ribbon.

The program throughout the evening had been of a high calibre and had included two other exciting jumping events as well as display, to celebrate Quebec night, of all prize-winning livestock entered by that province in the Fair. The Coliseum filled early in the evening and by the time the first jumping contest, the Touch and Out State had been called, there was not standing room available in the hall.

The Touch and Out brought in 26 entries over a course so difficult, it is although jumping was splendid, not one cleared. The first down, in fact, faltered at either first or second jumps and only four went as far as the fifth.

Coming near the last of the entries, Foxpaul, a big chestnut owned by Mrs. McNeil Davis, Wynne, Pa., and ridden by Howard Lewis, won the first ribbon of the night and took the state when he went over all but the last obstacle before he faltered, took the second ribbon.

Canada's Most Exports Show Marked Increase

Ottawa.—Exports of meat for the month of October were valued at \$467,228, an increase of \$11,200 as compared with \$456,028 in the previous month, but a decrease of \$96,112 when compared with the corresponding month of 1931 when the figures were \$552,341, says a report issued by the Dominion Bureau of Statistics. The chief purchaser last month was the United Kingdom with \$241,572. The value of meat exports for the 12 months ending October, says the report, was \$4,721,594, as against \$4,967,512 in the previous 12 months.

Grain Show Fees Reduced

Regina.—Fees for entry to the competitive classes of the world's grain show, Regina, 1932, have been reduced from \$5 to \$3 and from \$5 to \$3.50. It was announced by grain show officials here last week. In classes for grain show officials the total prize money amounts to \$2,000 or more the entry fee was formerly \$5, and in all other classes \$2.

U. of T. Student Found Dead

Body Clad in Girl's Underwear, in Rooming House Bed—Suffocation Is Blamed

Toronto, Nov. 21.—Clad in nothing but the stolen nylon underclothing of a young woman roomer in the same house, Frank N. Cohen, formerly of Winnipeg, third year medical student at the University of Toronto, was found dead in his bed early Sunday night, apparently a victim of suffocation after the use of chloroform.

Police and the chief coroner at an early hour this morning were still probing the mysterious circumstances of the curious death and the bizarre clothing of the corpse.

A fellow-roomer in the same house on St. George Street, uncovered the tragedy when he went to Cohen's room to inquire into his non-appearance.

In the room, police found two bottles, one containing chloroform, the other chloroform. Chief Coroner Crawford reported that the other had not been touched. Some of the chloroform had been used.

Investigation also showed that the underclothing was the property of the young woman aforementioned, who roomed in the same house. Now it was taken from her room she could not explain. She said the garments were there on Saturday. She discovered they were missing early yesterday.

SUFFOCATION FROM MIGRAINE

While unable to make a complete statement on the case last night, Coroner Crawford said he had learned that Cohen had suffered considerably from migraine, which causes intense, almost unbearable pain in the head. The student may have used the chloroform to relieve the pain, the doctor said. While the autopsy had not been completed, he was inclined to believe that death was caused by suffocation after the anesthetic had been taken.

Upset by the fatality, the woman in charge of the rooming house and fellow-roomers of Cohen's barred the door to all comers but police and the coroner.

"You must get everything from the coroner," was the reply to all questions.

SUFFOCATION BLAMED

Dr. Crawford, in making his investigation, was of the opinion that suffocation by the pillows may have been the main cause of death.

Cohen, 24 years old, regarded as one of his friends as an over-sensitive type of youth, was last seen at midnight Saturday by students rooming in the same house with him. He was seen preparing to take a bath on the second floor of the house.

He had been to a restaurant on Spadina for a late supper. Although he left his rooming house with another student to go to the restaurant, he is believed to have returned unaccompanied.

Dr. Crawford found that Cohen was subject to attacks of migraine, which he described as a blinding headache. An acute attack of migraine, he admitted, might suffice to affect the victim's mind.

UNAWARE IT HAD GONE

The girl whose underwear figures in the case was unaware of its disappearance until asked about it by investigating officials. No theory could be advanced to explain the youth's strange action in taking the clothes and wearing them.

Cohen's room on the second floor of the house had been locked all day with the blinds down. Anxious over his behavior during recent days, Percy Muir of Fort William, a second year Art student, forced the door and found the body.

Cohen, a member of a Jewish fraternity, apparently assumed the name of "Cowan" at the University, being registered as "Cowan" and so known to his friends. Coroner Crawford, however, last night insisted that the correct name was Cohen, and said that he had notified relatives in Winnipeg by that name, of the young man's death.

WORKED TOO HARD?

A fellow-student in his own year who had worked at the same desk with Cohen in the laboratory last year, J. E. Jernyn, believed he was attempting altogether too much work, and said that was the general feeling of the students who knew him. Mr. Jernyn stated that he was trying to get his master F.R.C.S. next year, that he was working very hard and that he was inclined to worry over his work.

Occasionally, he seemed depressed when his jaw and teeth ached. No doctor had been able to clear up the awful pains which he suffered at times in his head, his fellow student said.

New Use for Peas

Ames, Iowa.—The most famous in the football stadium of Iowa State College eat the harder it's going to be on the S.A. Football shells found on the stadium floor this year were taken to the school's chemical laboratory, where J. Burke Jacobs, college chemist, is reducing them to liquid form to be used as fly-killing spray.

"J. D." Goes South

John D. Rockefeller snapped as he arrived at Ormond Beach, Fla., where he regularly passes the winter.

"Medical Discovery" Not New to Canada

Newly Announced Treatment in U.S. Already Used By Medical Profession Here in Thousands—Not Restricted by Patent

Montreal.—Compounds of copper and iron as a treatment for secondary anaemia, announced as a "new discovery" from Madison, Wis., are not new to Canadian medical men. According to local authorities, thousands of cases have already been successfully treated by this method in the Dominion.

Over three years ago, states John B. Frost, well-known director of laboratories here, experiments were conducted both in the laboratory and in a Montreal hospital clinic. As soon as the effectiveness of the iron-copper compound was sufficiently proved by actual test, it was made generally available to the medical profession in Canada. The technical name of the compound is ferro-catalytic.

Experiments in the clinic, Mr. Frost explained, showed clearly that the addition of copper to iron was effective as a treatment for secondary anaemia. Of the first ten cases, none of which had reacted to iron, all responded when copper was added. Thousands of cases have since been successfully treated, he added.

Chief interest in Canada in the American announcement lies in the fact that it is stated that patents have been taken out on this new U.S. discovery. Mr. Frost states that the Canadian public is fully protected as steps were taken at the time that the efficacy of the treatment was demonstrated here and a Dominion patent issued at the time.

In view of the importance of the discovery to the health of the general public Mr. Frost and his colleagues made it available for manufacture by any licensed pharmaceutical company without the payment of royalties.

Measles Treated Too Lightly

Declares French Professor Measles is by no means a benign disease thinks the French professor Measles, whose views are set forth in a book on Measles (Paris). Measles, he fears, is on the increase. The study is malignant in the case of the more babe, and if the child be less than a year old, the utmost caution is required. Parents take measles too lightly.

It is responsible for more deaths than diphtheria, whooping-cough, or scarlet fever. Then we get these further interesting facts:

"In one decade measles caused in Europe about a million fatalities. The heaviest comprised principally but especially the youngest."

"How are we to account for the immunity of certain babes, and what is the effectiveness of such immunity? How long does it last?"

"Observation shows that measles which have had measles, impart immunity to their offspring."

"The immunity of the babe appears to be absolute during the first two months of its life, and practically ceases during the first three months. It would be relatively so during the fourth to the sixth month, but from the sixth month onward this immunity would wane."

"A babe whose mother never had measles is not immune. Some authorities claim that the mother who nurses her babe imparts immunity to it up to month—that is, if the mother has had measles. If the mother has had measles within a certain brief period prior to the birth of the child, the babe apparently bears immunity."

PRINCIPLES

Strengthen the principle of proper life, for it is by the surplus of individual strength that energy can be manifested outside.

Owl Lafts

Wife (at desk)—"I've been asked for a reference for my last maid. I've said she's lazy, unpunctual and imperfect. Now can I add anything to her favor?"

Husband—"You might say she's got a good appetite and sleeps well."

Monty's idea of a courageous and independent man is one who can go through life with a full set of lungs.

Tales

How much alike people are in general outline, but how different in detail. If, as is said, Nature abhors a vacuum, why does she create so many? People who bury the hatchet don't need a marker to remember the burying place. Truth is stranger than fiction—also scarier and less interesting. Bringement is the happiness of those who don't think. Some women seek in all standing by trying to look like a noble, about anyone who does his job well. Consider well your own faults and you will have less to say about the faults of others.

Got It Done

It isn't the job we intended to do, or the labor we've just begun, that puts us right on the balance sheet. It's the work we have really done. Our credit is built upon things we do. Our debt on things we shirk. The man who takes the biggest piece in the man who completes his work. Good intentions do not pay our bills. It's easy enough to plan. To wish is the play of an office boy. To do is the work of a man.

When a man buys a round trip ticket he thinks he's covered all the expense of the trip, but he forgets that his wife will have to buy a trunkful of new clothes.

Sandy—"How much to the station?" Taxi Driver—"Fifty cents, sir." Sandy—"Does that include the charge for my bag?" Taxi Driver—"I'll take those for nothing."

Sandy—"Excellent. Then I'll walk."

"Everybody has more or less troubles." "Yes," answered the observant woman. "If a man can't find anything else to worry him, he goes to a ball game and gets high; judgment at the empire."

Evlyn—"Oh, Jack's so wonderful—he's generous, polite, self-sacrificing, modest, religious and extremely affectionate. He doesn't smoke, gamble, drink or look at other women. But, just my luck, he's married."

Mattie—"Don't worry, dearie; no woman will stay married to a freak like that."

Truth is a Notion

The reason some folks never have any luck is because they spend too much time wishing on a lead of hay, or looking at the moon over their right shoulder.

Mary—"I hear you intend to teach after you are graduated." Carrie—"Yes, and I have the man already picked out."

A wealthy society lady had just engaged a new maid and was instructing her in the duties of waiting on the table.

Society Lady—"At dinner, Mary, you must remember always to serve from the left and take the plates from the right. Is that clear?"

New Maid—"Yes, ma'am. What's the matter, superstitious or something?"

Just the Thing

A minister delivered a sermon of only ten minutes duration. At the conclusion he explained: "I regret to inform you, brethren, that this morning my dog playfully ate the portion of my sermon that I have not delivered. Let us pray."

After the service a man who was a member of another church shook the preacher's hand and said: "I should like to know when that dog of yours has pups. I'd like one to give to our minister."

"We can't pay you the \$25.00 on this money order until you are seated."

"That's right! There's only one 'What kind of a woman is Wilson's wife?" "The kind that talks on and on and on about things that leave her speechless."

Old Lines for New Clothes

Like the horse you lead to water, you can coax a man into a new suit but you cannot get him to go out in it until his fancy as well as his figure conforms to the cut. So a decision just made public from the International Association of Clothing Designers' convention in New York seems a bad one. It is that post-top trousers, accented waists and broad shoulders must return to men's wear.

The backward turn in styles for women has a widely revived recollection of the Gibson girl that an attempt to revive the Gibson era might be thought of. And if their tendency to cling to last year's fashions extends to other sections of the wardrobe, the clothing designers will have to employ some subtle designs to put over their latest idea of reform.

It might be argued, of course, that the post-top trousers was popular for a number of years at Oxford and Cambridge. It might be pointed out that it doesn't really matter whether the superiority in a pair of trousers is at the top or bottom, and that a general-

Well Children

"Occasionally I give each of my five children BABY'S OWN TABLETS—I can see that is why they never have any serious illness," writes Mrs. George W. Taylor, York, Ont. The second advice is passed on to all Mothers. BABY'S OWN TABLETS can be given with complete safety to the youngest and most delicate child—on analysis, statement in each 25c package. Recommended by mothers for teething troubles, simple fever, cold, digestive disorders, constipation, flatulence. Easy to take as candy.

Couldn't Walk a Step

Credit Given Dr. Williams' Pink Pills For Ending Severe Attack of Rheumatism

Rheumatism Never Returned

"My father, a man past middle life, was suddenly stricken with rheumatism in the knees," writes Mrs. James Mitchell, St. Catharines, Ont. "He never was the attack that he was unable to take one step without assistance. We concluded that the trouble was constitutional, so we procured a supply of Dr. Williams' Pink Pills. A decided improvement was noticed, and when three boxes had been taken the trouble had completely disappeared. He now has the slightest turn of the rheumatism."

Dr. Williams' Pink Pills have proved wonderfully effective in numerous cases similar to this one. When the blood stream becomes thickened, rheumatism attacks the system. Dr. Williams' Pink Pills actually create an abundance of new blood cells, which enrich the blood stream and revitalize the entire system. They're highly recommended for ALL run-down or nervous conditions. They are a great help to growing girls. Get the Pills at your Druggist's. 50c package.

Xmas Cards and Seals for 1932 are Now Ready at -- HILLIER'S

Is Your Skin Broken Out?

Here's Quick Help For You!
You don't have to put up with that embarrassing disfigurement unless you wish.
Emerald Oil—soothing, healing, anti-irritant—will act like magic to clear away every blemish. Just bathe your face with hot water and soap, and then apply Emerald Oil. No rubbing in of thick grease! Just have your face gently with the healing oil, leaving a little on your skin all night.
In a few days you'll see an amazing difference—not a pimple on your face! But don't waste time merely thinking about it. Get Emerald Oil to-day from Dymond's Drug Store with a promise of money back if it doesn't clear your face.

"Be great in act, as you are in thought."—Shakespeare.

"Our actions are our own; their consequences belong to Heaven."—Francis.

GRIMSBY BEACH SUNDAY SCHOOL

Interdenominational
Lesson 9, November 27. Stewardship of Life.

Life would be a tragedy if it were not a stewardship. The fact that we are accountable to God, who created us for a definite and blessed purpose puts meaning and hope into all that we do in life. Christ's will is not only to save our souls for eternity but to save our present lives, in order that eternity may be the richer. Our part is to acknowledge that life is a stewardship, and live accordingly.
St. Mark 1, 18-20.

Rev. Mr. Earchman of Grimsby United Church will address the school with a talk on "Stewardship." Mr. and Mrs. H. Milligan will sing.
School opens at 2:30. Classes for all.

"Books—lighthouses erected in the great sea of time."—Whipple.

"The act of God injures no one."—Juvenal.

Local Items of Interest

Grimsby hunters have returned from the North, nearly all of whom secured their full quota of deer.

A meeting of the Grimsby and North Guelph Liberal Association will be held at the Masonic Hall on November 29th at 8 o'clock.

Last week two cartons of grapes were shipped to Montreal from the local station.

Came to St. John's Supper, served from 5:30 on Friday, November 25th in the Masonic Hall.

No police court was held this week at Grimsby.

Mayor Boulter and Reeve Wilkins will attend the next meeting of the Niagara peninsula Municipal Association to be held on December 1st at Welland. The meeting was postponed from Nov. 24th to the above date.

Buy your baking for the week-end at the St. John's Bazaar in the Masonic Hall on Friday, November 25th.

There was a very good turnout at the L.O.D.E. Bridge on Monday last in the L.O.D.E. rooms. Five tables took part in the play, with the prize for highest score being awarded to Mrs. Geoffrey Bourne.

On Monday afternoon next the committee in the bank, clearly the committee of the I. O. D. E. will hold a series of 13 o'clock in the Girl Guides. Fewer goods will be bought because the I. O. D. E. building and the money to buy them is for by the general business amount lying unneeded deposit, and the I. O. D. E. will be held other way of stimulating output and employment at the present time than by getting this money back into circulation.—London Daily Herald.

Christmas Gifts—all kinds of fancy goods, aprons, canisters, etc., at St. John's Bazaar, Masonic Hall, Friday, November 25th.

Under the auspices of the Grimsby Horticultural Society, the Windermere Dramatic Club, of Toronto, will present the play, "Christa Cottage", in Trinity Hall on Friday evening, Dec. 2nd, at 8 p.m. Admission 25 cents. Tickets at Dymond's and Millard's Drug Stores or of members of the Society.

The series of card parties which have been held by Grimsby Lodge, No. 349 in aid of a Christmas tree fund for children of unemployed are to be discontinued. The funds so far realized will be handed over to the L.O.D.E. to be used in connection with relief work.

Afternoon Tea served at the St. John's Bazaar on Friday, November 25th, in the Masonic Hall.

Owing to a break in the water main on Livingston Avenue caused by the pressure of earth on the pipe, consumers in that section were without water for a time on Tuesday until repairs were made.

While working in an excavation on Main St. on Saturday, Thomas Clark, an employee of the Water Works Dept. sustained head injuries when an approaching United States car skidded on the icy road as it neared that point, the car going into the excavation. The man's injuries were attended to by Dr. MacMillan.

Grimsby and district experienced its first fall of snow last week.

Judgments issued from Osgoode Hall, Toronto, indicate that Peter Kolin has won an appeal from a six months' sentence imposed in York county some time ago and his discharge from custody has been ordered.

CITY OF HAMILTON WOULD BOOST FEE FOR TRANSIENT TRADERS

At a meeting of the property and license committee, Hamilton, a chamber of commerce deputation appeared to support the proposal of Ald. A. G. Gault that the annual fee paid by transient traders for the privilege of doing business in Hamilton should be increased from \$250 to \$500. Ald. Gault is waging his battle for an increased fee as a means of protecting Hamilton merchants from the competition of transient traders who come to the city to sell their goods. The deputation has asked that there be a general catering up on the part of the law against the incursion of outside traders particularly at this season of the year when Hamilton storekeepers are going to get at least a decent break because of the Christmas rush.

TAKE NOTE

ANNUAL DANCE!

Supreme Cannery are holding their Annual Ball and Supper at the Oddfellow's Hall on Thursday evening, November 24th. One of the leading Hamilton Orchestras of seven pieces will be in charge of the music. New and Old Time Dances and a large program have been prepared. We are extending a hearty invitation to all our patrons and friends. Don't forget Thursday night, November 24th.

E. D. TODD,
Local Manager

SUSTAINS FRACTURED RIBS IN AUTO ACCIDENT

Involved in a crash on Webster's street near Stony Creek Wednesday last, Mrs. Lyle Nash, Stony Creek suffered two fractured ribs a crushed hand and a gash to her tongue which required five stitches.

Mrs. Nash was injured when her auto was badly wrecked in collision with a Toronto transport company's truck and she is under medical attention at the home of her mother, Mrs. Edie VanWagoner, 26 Gladstone avenue.

Registration in Public Schools, St. Catharines

Registration in St. Catharines public schools for October was the largest in the city's history, Inspector D. C. Hetherington reported to the Board of Education. There were 2,000 boys and girls attending public schools. The report was presented at the November meeting of the board.

MANY PLOWMEN PARTICIPATED

Lincoln County Plowing Match
Best Ever Held—Competition
Was Keen

This annual event held on the John Cusby Farm near St. Anna, recently, was the best ever held in the county in point of numbers of plowmen and the weather was ideal bringing out a great following of the noble art of plowing.

In all there were 46 plowmen in the field, seven with tractor plow and the balance with horse drawn plows. This was three more than in 1931. The quality of the plowing was excellent considering the very dry soil conditions. Jas. MacLean, the Government Judge placed the awards and also gave an address in the evening at the St. Anna Hall where the banquet was put on by the W. I. of St. Anna and over 150 plowmen and visitors banqueted. Major Black of the Canadian Industries Ltd., was the guest speaker and short addresses were also given by A. G. Skinner, agricultural representative for Hamilton county, Herbert Copeland, reeve of Colutor, H. W. C. Copeland, reeve of Niagara, and others. Geo. Irvine of Grantham acted as chairman. John Hurd, the president assisted by the secretary, Walter Wilson, and the agricultural representative, E. P. Neill, presented the prizes and silver trophies.

Plowmen from nearly all the adjoining counties were plowing in the open classes as well as five or six stalwart Indians from the Oshwegon Reserve near Brantford. Some good plowing was done by the outsiders, who received good class prizes as well as one championship cup. John Deane of Paris, and Alex. Black of Oshwegon, were the highest bidders for the honor, while Lorne Marshall and Donald Bush were the best local Junior Farmers, each securing a cup for the best in their class. A. E. Fay was champion tractor plowman.

The names of the winners and places of residence, follows:

- Class 1
1. Donald Bush, Colutor Centre.
2. E. Owen, Oshwegon.
- Class 2
1. John Deane, Paris.
2. Alex. Black, Oshwegon.
3. Geo. Garlow, Oshwegon.
4. John Lister, Hornby.
5. M. Deane, Paris.
6. Wm. Bruce, St. Catharines, No. 2.
7. Herbert Hexton, Oshwegon.
8. John Brown, Queenston.

- Class 3
1. Lorne Marshall, Colutor Centre.
2. Allen Packham, Colutor Centre.
3. Geo. Asher, Colutor Centre.
4. Claire Crowe, Fenwick.

- Class 4
1. Donald Bush, Colutor Centre.
2. Hugh Lounsbury, Smithville.
3. Fred Clarke, Vineland Sta.
4. John Montgomery, Smithville.

- Class 5
1. F. Woodruff, Hagersville.
2. Raymond Comfort, St. Anna.
3. Reid, McPherson, St. Anna.
4. W. Lickers, Oshwegon.
5. Roger Comfort, St. Anna.
6. Wm. Shugg, Niagara Falls.

- Class 6
1. Gerald Moots, St. Anna.
2. Herbert Moore, St. Anna.
3. Herbert Davidson, Fenwick, No. 1.

- Class 7
1. Jack Taylor, Smithville, No. 2.
2. Ross Young, Colutor Centre.
3. Marshall Sumner, Fenwick.
4. Clifford Lane, St. Anna.

- Class 8
1. John Ellis, Fenwick, No. 1.
2. Chas. Patterson, Fenwick, No. 1.
3. Merle Torreyberry, St. Anna, No. 1.

- Class 9, Tractor
1. Victor Book, Smithville.
2. J. T. Gilm, Woodville, No. 1.
3. J. Stephenson, St. Catharines, 4.
4. John Cusby, St. Anna, No. 1.

- Class 10
1. A. E. Fay, McNab.
2. Geo. May, Queenston.
3. LeRoy Durham, Smithville.

The Rose Marie Beauty Shop

During the past few years special attention has been given by women to the matter of personal adornment particularly with reference to hair dressing resulting in the establishment of Beauty Shops to meet the requirements of the fair sex in this respect.

Among those operated in the town of Grimsby is The Rose Marie Beauty Shop, located at 14 Main Street East. Included in the modern equipment installed is an up-to-date Westman permanent waving machine and two wall driers, the only ones of their kind between Hamilton and St. Catharines. The permanent waving machine registers the exact voltage in the application of heat to the hair. The desired amount of heat is accurately recorded on the machine assuring excellent results and enabling the Rose Marie to give a distinctive service.

Established a year ago by Mr. Charles Cox, The Rose Marie Beauty Shop is serving a steadily increasing clientele. Amidst pleasant surroundings and with two skilled operators in attendance, patrons of this Beauty Shop are assured of a high type of service.

Fairview Lunch and Service Station

An increasing number of tourists and visitors to this district are taking advantage of the splendid facilities offered by the Fairview Lunch and Service Station, operated for the past eight years by Mr. W. Heim and located three miles west of the town of Grimsby. It is a comfortable and inviting place at which to stop over on their journeys through the Peninsula, they being always assured of efficient and courteous service.

Besides accommodation for tourists high class grades of gas and oil are furnished motorists while the traveller and visitor will also enjoy the tasty luncheon served and the excellent service generally given at this growingly popular service and lunch station.

Tourists and others passing through the district are cordially invited to stop over at the Fairview tourist camp which is situated amidst attractive surroundings, close to the highway and the lake as well as to the beautiful Niagara Escarpment.
